

SAVI Kona has been cooling AV racks for over a decade. Drawing in air from the front and pushing it out the back, Kona creates a stream of airflow over each component, increasing the reliability and longevity of your hardware by helping to maintain safe operating temperatures. The pre-mounted fan core on vibration isolators delivers the ultimate quiet cooling experience at only 20dB.

KEY BENEFITS

- Creates a 20-cfm constant airflow stream over each component
- Helps to maintain safe operating temperatures for equipment and eliminates downtime from overheating
- Saves rack space in a sleek 1U design with rack ears included
- Pre-mounted fan core on vibration isolators at only 20 dB

SPECIFICATIONS

POWER	
Requirements	100V-240V ~ 50/60Hz input to included AC/DC power supply
Consumption	500mA @ 12V
Connection	Switching Power Supply AC/DC adapter - Operation from 100VAC +/-15% 2.1mm power plug
ENVIRONMENTAL	
Rack Spacing	1U
Operating Temperature	0°F to 180°F (-18°C to 82°C)
Dimensions - (HxWxD)	1.75" x 19" x 2.543"
Weight	1.36 lbs
Mounting	19" rack mount with included ears
Fan dB Level	20 dB
Airflow	20 CFM
