The SAVI Thermostat makes it easy to integrate HVAC systems with SAVI Controls. This compact Wi-Fi-enabled thermostat is a breeze to install and gives you the power to program over the network. Compatible with gas, electric, or heat pump systems, the SAVI Thermostat is flexible enough for any job.

KEY BENEFITS

- Works with gas/electric or heat pump HVAC systems
- 7-day programmable
- Large, easy-to-read backlit LED screen
- Non-volatile memory - settings remain even after loss of power

SPECIFICATIONS

Control, Monitoring, and Network	
Control integration system	Quick and simple setup and control with SAVI Controls
Dip switches	Gas/elec for fan control, heat pump input option, GAS/EL vs HP sets if a heat pump is present
IP control	Direct control through a built-in web server and user-friendly interface. No software download needed
Network configuration	DHCP or static IP address
Supported operating systems	Windows, Linux, Mac, iOS, Android
User Interface	Intuitive front panel button controls
Wireless type	2.4 GHz Wi-Fi antenna WEP and WPA/WPA2 compatible

SPECIFICATIONS CONT.

Electrical

Connection	R: 24 VAC return
G: Fan relay
W1/O/B: 1st stage heat
W2: 2nd stage heat
Y1: 1st stage compressor relay
Y2: 2nd stage compressor relay
C: 24 VAC common
CK1: Dry contact
Power consumption	24 VAC
Power supply	Tie into an existing HVAC system

Mechanical/Environmental

Dimensions	3.05 in x 3.05 in x 1 in (HxWxD)
Display	Large easy to read backlit LED screen
Status LED: red=heat, green=cool
Functions	4 buttons: Mode, override, up, down (buttons may be locked to prevent unauthorized use)
Mounting	Backplate mounting holes for drywall installation, front panel snaps into backplate
Weight	0.23 lb
