

WARNING: SHOCK HAZARD

This device is intended for installation per the National and Canadian Electrical Code as well as the United States and Canadian local regulations.

If you are unsure or uncomfortable about performing the installation, consult a qualified electrician.

ATTENTION : RISQUE DE CHOC ÉLECTRIQUE

Cet appareil est destiné à être installé conformément au Code électrique national et aux réglementations locales aux États-Unis, ainsi qu'au Code électrique canadien et aux réglementations locales au Canada.

Si vous avez des doutes ou si vous ne vous sentez pas à l'aise pour effectuer l'installation, consultez un électricien qualifié.

IMPORTANT: Ensure PoE is rated for 30 W at 48 VDC.

The PoE 6-Button Keypad requires data and power over a single Ethernet connection. A PoE-compliant Ethernet switch delivers both data and power over a standard CAT5e data cable. Installations with non-PoE switches require a PoE compliant power source, such as the PoE injector.

PoE Keypad Wiring/Installation Instructions

1. Remove wall plate.
2. Remove the switch mounting screws.
3. Carefully remove the switch from the switch box.

Note: There is a single RJ45 port on the back of the keypad.

IMPORTANT: When powered correctly via PoE, LEDs will illuminate to indicate the device is ready to be provisioned.

Refer to the **Documentation** section on [SAVI's dealer portal](#) for user guides, datasheets, and more.

INSTALL GUIDE

POE KEYPAD

LEGAL

Input: 37–57 VDC (nominal 48 VDC)
Operating ambient temperature 0–40 °C
FOR INDOOR USE ONLY

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment. Please visit savicontrols.com to find the full FCC/IC statements.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and should be installed and operated with a minimum distance of 20 cm between the radiator and any part of your body.

IC

This device complies with Part 15 of the FCC Rules and with RSS of Industry Canada. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with ISED RSS-102 radiation exposure limits set forth for an uncontrolled environment and should be installed and operated with a minimum distance of 20 cm between the radiator and any part of your body.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage, et
2. L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
3. Pour se conformer aux exigences de conformité CNR 102 RF exposition, une distance de séparation d'au moins 20 cm doit être maintenue entre l'antenne de cet appareil et toutes les personnes.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada
